📍 Jeddah, Saudi Arabia

Languages
Arabic - Native Speaking

English - Highly Proficient

Education
Dual Degree: Bachelor of Software Engineering & Computer Science
Kuala Lumpur, Malaysia & Coventry, UK
2019 - 2022

Soft Skills
Project Management

Data Analysis

Strategic Planning

Problem Solving

Communication Skills

Hard Skills
JavaScript, TypeScript, React, Next.js, Node.js, Express, Python, Django, Flutter, SQL, MySQL, NoSQL, MongoDB, RESTful APIs, Git, GitHub, Docker, HTML5, CSS3, Tailwind CSS, WordPress

Projects
TaxVerge - Financial Management
Vue | Nuxt | NoSQL | API

ResumeGit - Online Resume Builder
React | Remix | NoSQL | API

BonYemeni - Online Business EventS Tracking
Wordpress | PHP | MySQL

Results-driven Software Engineer with 2+ years of experience in building scalable web applications and backend services using JavaScript, Node.js, and cloud-native technologies. Passionate about clean code, performance optimization, and solving real-world problems through technology. Seeking to contribute to a fast-paced, product-driven environment where I can lead impactful engineering projects and grow alongside a world-class team.

Work Experience

Full Stack Developer - React | Next | NoSQL | API　　　　04/2024 - 04/2025
Othouba Line, Saudi Arabia
- Developed and maintained a dynamic invoicing and tax reporting platform using React and Next.js with server-side rendering.
- Designed scalable UI components and implemented responsive layouts, improving load speed and performance by 35%.
- Built and integrated RESTful APIs to handle customer, product, invoice, and financial statement operations securely and efficiently.
- Architected and managed NoSQL database structure to support real-time data updates and large dataset handling.

Full Stack Developer - Flutter | Django | Next | API | SQL　　　　04/2022 - Present
Freelance
- Designed and developed cross-platform mobile apps using Flutter, delivering smooth user experiences on both Android and Desktop.
- Built and deployed responsive web applications with Next.js, leveraging server-side rendering for performance and SEO optimization.
- Integrated custom APIs for seamless data exchange between mobile apps, web platforms, and backend services.
- Developed and customized WordPress websites, including plugin integration, custom themes, and CMS optimization for clients.
- Created and managed relational databases using SQL, ensuring data integrity and efficient query performance.

Full Stack Developer - Qt | Python | MySQL | MSSQL　　　　08/2021 - 02/2022
MyERP Solutions Sdn Bhd, Malaysia (Internship)
- Migrated 365 SQL Server tables to 330 MySQL tables using a custom Windows application with advanced mapping and transformation features.
- Enhanced a PHP-based system to support bulk data export/import functionality.
- Built tools for integrating Excel data into existing databases, reducing manual effort by 50%.

Certifications

International Academic Qualifications
WES | 03/2025

Docker Foundations
Docker | 04/2024

Oracle Cloud Data Management
Oracle | 07/2023

Career Essentials in Data Analysis
Microsoft | 04/2025
